Dear Nursery Parents,

Nursery Joint/Group Observation Consent

As part of the role of an Early Years Educator and your child's Key Person, we regularly monitor and track each child's development in line with the Early Years Foundation Stage (EYFS) Framework.

We do this by observing children's learning and development through a combination of adult-led activities and child-initiated play. As part of our commitment to working in partnership with parents and carers, we share observations and photographs with you via the Family app and encourage you to share any new experiences, interests, achievements, or milestones children from home.

While we aim to complete individual observations for each child, there may be occasions when we record joint or group observations. This enables us to share the activities, experiences, and learning opportunities that children are enjoying together as a nursery family. Please be assured that we will never share sensitive information or discuss an individual child's development within joint/group observations.

Parental Consent

Please log on to your Arbor account where you will be able to give or decline consent to the following statement:

I consent to my child participating in joint/group observations. I understand that all photographs and observations shared via the Family app are private and confidential and must not be shared with others or posted on social media platforms.

If you have any queries regarding the consent or problems logging in to Arbor, please email the school office.

Many thanks

Bishops Lydeard Church School
